New Directions in Later Medieval Manuscript Studies Derek Pearsall, 2000 Influential scholars from Britain and North America discuss future directions in rapidly expanding field of manuscript study. The study of manuscripts is one of the most active areas of current research in medieval studies: manuscripts are the basic primary material evidence for literary scholars, historians and art-historians alike, and there has been an explosion of interest over the past twenty years. Manuscript study has developed enormously: codices are no longer treated as inert witnesses to a culture whose character has already been determined by the modern scholar, but are active participants in a process of exploration and discovery. The articles collected here discuss the future of this process and vital questions about manuscript study for tomorrow's explorers. They deal with codicology and book production, with textual criticism, with the material structure of the medieval book, with the relation of manuscripts to literary culture, to social history and to the medieval theatre, and with the importance to manuscript study of the emerging technology of computerised digitisation and hypertext display. The essays provide an end-of-millennium perspective on the most vigorous developments in a rapidly expanding field of study. Contributors: A.I. Doyle, C. David Benson, Martha W. Driver, J.P. The Medieval Theologians G. R. Evans, 2001-02-08 The Medieval Theologians provides a clear and comprehensive introduction to the period through an examination of the key individual theologians of the time. Chronologically arranged, it allows students to explore this crucial period when so many important theological developments took place. Covers the important period from the 5th to the 16th centuries, when theology took shape as an increasingly formal subject of academic study. The only book to trace developments in the field by individual theologian, rather than thematically, as is the case in other texts. Provides a unique and distinctively theological perspective. Written by leading authorities from around the world.

The Westminster Handbook to Medieval Theology James R. Ginther, 2009-01-01 The theologians and major thinkers of the medieval period developed their thought in complicated ways, giving rise to the term scholasticism, which was the method of
learning associated with the great schools of the period. Theology was the center of thought, and finding one's way through the many and complex theological ideas introduced during this era can be very difficult. This accessible reference work clarifies these ideas and provides an extensive guide to the main theological features of medieval theology. Author James Ginther provides clear and compelling discussions of major Christian thinkers, sociocultural developments, and key terms and concepts related to the period. Both students and scholars will find this an eminently useful resource for the study of medieval theology.

**Medieval Petitions** W. M. Ormrod, Gwilym Dodd, Anthony Musson, 2009

New research into petitions and petitioning in the middle ages, illuminating aspects of contemporary law and justice. The mechanics, politics and culture of petitioning in the middle ages are examined in this innovative collection. In addition to important and wide-ranging examinations of the ancient world and the medieval papacy, it focuses particularly on petitions to the English crown in the later middle ages, drawing on a major collection of documents made newly accessible to research in the National Archives. A series of studies explores the political contexts of petitioning, the broad geographical and social range of petitioners, and the fascinating worm's-eye view of medieval life that is uniquely offered by petitions themselves; and particular attention is given to the performative qualities of petitioning and its place in the culture of royal intercession. With their vivid new insights into judicial conventions and the legal creativity spawned by political crisis, these papers provide a closely integrated assessment of current scholarship and new research on these most fascinating and revealing of medieval social texts. **Medieval Theology and the Natural Body** Peter Biller, Alastair J. Minnis, 1997

An introductory essay by Peter Biller on medieval and contemporary concerns with the body is followed by Alcuin Blamire's examination of the paradoxes inherent in the metaphor of man as head, woman as body, in authors ranging from St Augustine to Christine de Pizan. Peter Abelard, a writer who 'dislocated' this image, is the principal figure of the next two papers. David Luscombe's study looks successively at Abelard's view of the role of senses in relation to thought and mind, the problem of body in resurrected beings, and dualities in his correspondence with Heloise. **Intersections of Sexuality and the Divine in Medieval Culture** Susannah Chewning, 2017-03-02

As distinct from the many recent collections and studies of medieval literature and culture that have focused on gender and sexuality as their major themes, this collection considers and serves to re-think and re-situate religion and sexuality together. Including 'traditional' works such as Chaucer and the Pearl-poet, as well as less well known and studied texts - such as alchemical texts and the Wohunge group - the contributors here focus on the meeting point of these two often-examined concepts. They seek an understanding of where sex and religion distinguish themselves from one another, and where they do not. This volume locates the Divine and the Erotic within the continuum of experience and devotion that characterize the paradox of the medieval world. Not merely original in their approaches, these authors seek a new vision of how these two inter-connected
themes - sexuality and the Divine - meet, connect, distinguish themselves, and merge within medieval life, language, and literature.

**Early Medieval Theology** George Englert McCracken, 1957

**The King's Two Bodies** Ernst Kantorowicz, 2016-05-10

Originally published in 1957, this classic work has guided generations of scholars through the arcane mysteries of medieval political theology. Throughout history, the notion of two bodies has permitted the postmortem continuity of monarch and monarchy, as epitomized by the statement, “The king is dead. Long live the king.” In The King’s Two Bodies, Ernst Kantorowicz traces the historical dilemma posed by the “King’s two bodies”—the body natural and the body politic—back to the Middle Ages. The king’s natural body has physical attributes, suffers, and dies, as do all humans; however the king’s spiritual body transcends the earth and serves as a symbol of his office as majesty with the divine right to rule. Bringing together liturgical works, images, and polemical material, Kantorowicz demonstrates how early modern Western monarchies gradually began to develop a political theology. Featuring a new introduction and preface, The King’s Two Bodies is a subtle history of how commonwealths developed symbolic means for establishing their sovereignty and, with such means, began to establish early forms of the nation-state.

During the early middle ages, Europe developed complex and varied Christian cultures, and from about 1100 secular rulers, competing factions and inspired individuals continued to engender a diverse and ever-changing mix within Christian society. This volume explores the wide range of institutions, practices and experiences associated with the life of European Christians in the later middle ages. The clergy of this period initiated new approaches to the role of priests, bishops and popes, and developed an ambitious project to instruct the laity. For lay people, the practices of parish religion were central, but many sought additional ways to enrich their lives as Christians. Impulses towards reform and renewal periodically swept across Europe, led by charismatic preachers and supported by secular rulers. This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry.

**Literary Theory and Criticism in the Later Middle Ages** Ardis Butterfield, Ian Johnson, Andrew Kraebel, 2023-03-31

Written by a multidisciplinary team of leading international authors, the chapters honour and advance Alastair Minnis’s field-defining scholarship. A wealth of expert essays refract the nuances of theory through the medium of authoritative Latin and vernacular medieval texts, providing fresh interpretative treatment to known canonical works while also bringing unknown materials to light.

The Christian Tradition

Jaroslav Pelikan, 2008-12-08

A magnificent history of doctrine.—New York Review of Books

In this volume Jaroslav Pelikan continues the splendid work he has done thus far in his projected five-volume history of the development of Christian doctrine, defined as 'what the Church believes, teaches, and confesses on the basis of the word of God.' The entire work will become an indispensable resource not only for the history of doctrine but also for its reformulation today. Copious documentation in the margins and careful indexing add to its immense usefulness.—E. Glenn Hinson, Christian Century

This book is based on a most meticulous examination of medieval authorities and the growth of medieval theology is essentially told in their own words. What is more important, however, then the astounding number of primary sources the author has consulted or his sovereign familiarity with modern studies on his subject, is his ability to discern form and direction in the bewildering growth of medieval Christian doctrine, and, by thoughtful emphasis and selection, to show the pattern of that development in a lucid and persuasive narrative. No one interested in the history of Christianity or theology and no medievalist, whatever the field of specialization, will be able to ignore this magnificent synthesis.—Bernhard W. Scholz, History

The series is obviously the indispensable text for graduate theological study in the development of doctrine, and an important reference for scholars of religious and intellectual history as well. . . . Professor Pelikan's series marks a significant departure, and in him we have at last a master teacher.—Marjorie O'Rourke Boyle, Commonweal

Joan of Arc and Spirituality

Bonnie Wheeler, A. Astell, 2016-09-27

Joan of Arc is an unusual saint. Canonized in 1920 as a virgin, she died in 1431 as a condemned heretic. Uneducated, militant, and youthful, she obeyed 'Voices' that counselled her to pursue an unprecedented vocation. The various trial records provide a wealth of evidence about how Joan and others understood her spiritual life. This collection explores multiple facets of Joan's prayerful life. Two-thirds of the essays focus on Joan in her own time; the later chapters study Joan's formative influence upon modern women. Taken together, these essays offer new perspectives on the heroism of Joan's original way of sanctity.

Youth in the Middle Ages

P. J. P. Goldberg, Felicity Riddy, 2004

Evidence for childhood and youth from the sixth century to the sixteenth, but with particular emphasis on later medieval England. Moving on from the legacy of Ariès, these essays address evidence for childhood and youth from the sixth century to the sixteenth, but with particular emphasis on later medieval England. The contents include the idea of childhood in the writing of Gregory of Tours, skaldic verse narratives and their implications for the understanding of kingship, Jewish communities of Northern Europe for whom children represented the continuity of a persecuted faith, children in the records of the northern Italian Humiliati, the meaning of romance.
narratives centred around the departure of the hero or heroine from the natal hearth, the age at which later medieval English youngsters left home, how far they travelled and where they went, literary sources revealing the politicisation of the idea of the child, and the response of young, affluent females to homiletic literature and the iconography of the virgin martyrs in the later middle ages. Contributors: FRANCES E. ANDREWS, HELEN COOPER, P.J.P.GOLDBERG, SIMCHA GOLDIN, EDWARD F. JAMES, JUDITH JESCH, KIM M. PHILLIPS, MIKE TYLER, ROSALYNN VOADEN.

Medieval Obscenities Alastair J. Minnis, Carolyne Larrington, Danuta Shanzer, 2014 Obscenity is central to an understanding of medieval culture, and it is here examined in a number of different media.

The Garden of Delights Fiona J. Griffiths, 2011-06-03 In The Garden of Delights, Fiona J. Griffiths offers the first major study of the Hortus deliciarum, a magnificently illuminated manuscript of theology, biblical history, and canon law written both by and explicitly for women at the end of the twelfth century. In so doing she provides a brilliantly persuasive new reading of female monastic culture. Through careful analysis of the contents, structure, and organization of the Hortus, Griffiths argues for women's profound engagement with the spiritual and intellectual vitality of the period on a level previously thought unimaginable, overturning the assumption that women were largely excluded from the renaissance and reform of this period. As a work of scholarship that drew from a wide range of sources, both monastic and scholastic, the Hortus provides a witness to the richness of women's reading practices within the cloister, demonstrating that it was possible, even late into the twelfth century, for communities of religious women to pursue an educational program that rivaled that available to men. At the same time, the manuscript's reformist agenda reveals how women engaged the pressing spiritual questions of the day, even going so far as to criticize priests and other churchmen who fell short of their reformist ideals. Through her wide-ranging examination of the texts and images of the Hortus, their sources, composition, and function, Griffiths offers an integrated understanding of the whole manuscript, one which highlights women's Latin learning and orthodox spirituality. The Garden of Delights contributes to some of the most urgent questions concerning medieval religious women, the interplay of gender, spirituality, and intellectual engagement, to discussions concerning women scribes and writers, women readers, female authorship and authority, and the visual culture of female communities. It will be of interest to art historians, scholars of women's and gender studies, historians of medieval religion, education, and theology, and literary scholars studying questions of female authorship and models of women's reading.

The Late Medieval English College and Its Context Clive Burgess, Martin Heale, 2008 A wide ranging survey of the medieval secular college and its context.

How Marriage Became One of the Sacraments Philip L. Reynolds, 2016-06-30 Among the contributions of the medieval church to western culture was the idea that marriage was one of the seven sacraments, which defined the role of married folk in the church. Although it had ancient roots, this new way of regarding marriage raised many problems, to which
scholastic theologians applied all their ingenuity. By the late Middle Ages, the doctrine was fully established in Christian thought and practice but not yet as dogma. In the sixteenth century, with the entire Catholic teaching on marriage and celibacy and its associated law and jurisdiction under attack by the Protestant reformers, the Council of Trent defined the doctrine as a dogma of faith for the first time but made major changes to it. Rather than focusing on a particular aspect of intellectual and institutional developments, this book examines them in depth and in detail from their ancient precedents to the Council of Trent.

**Mary Magdalene and the Drama of Saints** Theresa Coletti, 2013-11-15 A sinner-saint who embraced then renounced sexual and worldly pleasures; a woman who, through her attachment to Jesus, embodied both erotic and sacred power; a symbol of penance and an exemplar of contemplative and passionate devotion: perhaps no figure stood closer to the center of late medieval debates about the sources of spiritual authority and women's contribution to salvation history than did Mary Magdalene, and perhaps nowhere in later medieval England was cultural preoccupation with the Magdalene stronger than in fifteenth-century East Anglia. Looking to East Anglian texts including the N-Town Plays, The Book of Margery Kempe, The Revelations of Julian of Norwich, and Bokenham's Legend of Holy Women, Theresa Coletti explores how the gendered symbol of Mary Magdalene mediates tensions between masculine and feminine spiritual power, institutional and individual modes of religious expression, and authorized and unauthorized forms of revelation and sacred speech. Using the Digby play Mary Magdalene as her touchstone, Coletti engages a wide variety of textual and visual resources to make evident the discursive and material ties of East Anglian dramatic texts and feminine religion to broader traditions of cultural commentary and representation. In bringing the disciplinary perspectives of literary history and criticism, gender studies, and social and religious history to bear on specific local instances of dramatic practice, Mary Magdalene and the Drama of Saints highlights the relevance of Middle English dramatic discourse to the dynamic religious climate of late medieval England. In doing so, the book decisively challenges the marginalization of drama within medieval English studies, elucidates vernacular theater's kinship with influential late medieval religious texts and institutions, and articulates the changing possibilities for sacred representation in the decades before the Reformation.

**Guilds and the Parish Community in Late Medieval East Anglia, C. 1470-1550** Ken Farnhill, 2001 The social and religious functions of the fraternities are then compared with the parish, through a study of the records of two Norfolk market towns (Wymondham and Swaffham) and two Suffolk villages (Bardwell and Cratfield). The evidence illuminates the role of the guilds in the social and religious life of the local community, along with their position within the parish hierarchy. A final chapter studies the fortunes of the guilds during the early years of the Reformation, up to their dissolution in 1548--Jacket.

**Introduction to Medieval Theology** Rik Van Nieuwenhove, 2022-03-24 This classic book, now in a second, expanded edition, is an invitation to think along with major theologians and spiritual authors, men and women from the time of St
Augustine to the end of the fourteenth century, who profoundly challenge our (post-)modern assumptions. Medieval theology was radically theocentric, Trinitarian, Scriptural, and sacramental, yet it also operated with a rich notion of human understanding. In a post-modern setting, when modern views on 'autonomous reason' are increasingly questioned, it is fruitful to re-engage with pre-modern thinkers who did not share our modern and post-modern presuppositions. Their different perspective does not antiquate their thought; on the contrary, it makes them profoundly challenging and enriching for theology today. This survey introduces readers to key theologians of the period and explores themes of the relationship between faith and reason; the mystery of the Trinity; soteriology; Christian love; and the transcendent thrust of medieval thought.

**On Deification and Sacred Eloquence** Louise Nelstrop, 2019-10-01 This book considers the place of deification in the writings of Julian of Norwich and Richard Rolle, two of the fourteenth-century English Mystics. It argues that, as a consequence of a belief in deification, both produce writing that is helpfully viewed as sacred eloquence. The book begins by discussing the nature of deification, employing Norman Russell’s typology. It explores the realistic and ethical approaches found in the writings of several Early Greek Fathers, including Irenaeus of Lyons, Cyril of Alexandria, Origen, and Evagrius Ponticus, as well as engaging with the debate around whether deification is a theological idea found in the West across its history. The book then turns its attention to Julian and Rolle, arguing that both promote forms of deification: Rolle offering a primarily ethical approach, while Julian’s approach is more realistic. Finally, the book addresses the issue of sacred eloquence, arguing that both Rolle and Julian, in some sense, view their words as divinely inspired in ways that demand an exegetical response that is para-biblical. Offering an important perspective on a previously understudied area of mysticism and deification, this book will be of interest to scholars of mysticism, theology, and Middle English religious literature.

**Design and Distribution of Late Medieval Manuscripts in England** Margaret Connolly, Linne R. Mooney, 2008 One of the most important developments in medieval English literary studies since the 1980s has been the growth of manuscript studies. The thirteen essays in this volume discuss aspects of the design and distribution of manuscripts in late medieval England, focusing particularly on vernacular manuscripts of the fifteenth and early sixteenth centuries. This binary focus on secular and devotional texts illuminates shared networks of production and dissemination, and considerably expands current knowledge of regional and metropolitan book production in the period before printing. --BOOK JACKET.

**The Measure of Multitude** Peter Biller, Senior Lecturer in History, 2000 In this new study Peter Biller challenges the view that medieval thought was fundamentally abstract. He investigates medieval thought's capacity to deal with concrete contemporary realities, and sets academic discussions of population alongside the medieval facts of 'birth, and copulation, and death'. --BOOK JACKET.

**Kingdom of Snow** Raymond Van Dam, 2002-09-27 Kingdom of Snow investigates the impact of Roman rule in Cappadocia
and the fate of classical Greek culture in an increasingly Christian society.

**This Is My Body** Ella Johnson, 2020-04-15 This book examines how the writings of the thirteenth-century nun Gertrude the Great of Helfta articulate an innovative relationship between a person's eucharistic devotion and her body. It attends to her references to the biblical, monastic, and theological traditions, including attitudes and ideas about the spiritual and corporeal senses, in order to illuminate the affirmative role Gertrude assigns to the body in making spiritual progress. Ultimately the book demonstrates that Gertrude leaves behind the dualistic aspect of the Christian intellectual and devotional tradition while exploiting its affirmative concepts of bodily forms of knowing divine union.

**The Medieval World** Peter Linehan, Janet L. Nelson, Marios Costambeys, 2018-02-01 Ranging from Connacht to Constantinople and from Tynemouth to Timbuktu, the forty-four contributors to The Medieval World seek to bring the Middle Ages to life, offering definitive appraisals of the distinctive features of the period. This second edition includes six additional chapters, covering the Byzantine empire, illuminated manuscripts, the 'ésprit laïque' of the late middle ages, saints and martyrs, the papal chancery and scholastic thought. Chapters are arranged thematically within four parts: 1. Identities, Selves and Others 2. Beliefs, Social Values and Symbolic Order 3. Power and Power Structures 4. Elites, Organisations and Groups The Medieval World presents the reader with an authoritative account of original scholarship across the medieval millennium and provides essential reading for all students of the subject.

**The Wollaton Medieval Manuscripts** Ralph Hanna, Thorlac Turville-Petre, 2010 A survey of the history, holdings, decoration, and conservation of one of England's finest medieval libraries, with full catalogue. The Willoughby family, from Wollaton, Nottinghamshire, built up an extensive medieval library, including the notable Wollaton Antiphonal; theirs is the largest surviving library gathered by a gentry family of the period, the product of a single acquisitive burst, beginning around 1460 and mainly completed at about the time of the Dissolution in 1540. The manuscripts remain unique because of the very substantial core which survives more or less in situ, together with a huge collection of family archives, at the University of Nottingham, just a few miles from their original home. This book focuses upon the ten manuscripts now in the Wollaton Library Collection as well as the famous Antiphonal. Essays explore the history of the library and the Willoughby family, the books of Sir Thomas Chaworth, the art and function of the Antiphonal, the works of pastoral instruction, the decoration of the Frenchmanuscripts (including the earliest fully illustrated manuscript of romances), the Confessio Amantis, and the conservation of the collection. The essays are followed by a full catalogue of the Wollaton Library Collection as well as of manuscripts and early printed books now dispersed as far afield as Tokyo and New York. Contributors: Alixe Bovey, Gavin Cole, Ralph Hanna, Dorothy Johnston, Rob Lutton, Derek Pearsall, Alison Stones, Thorlac Turville-Petre.

**Religion and Medicine in the Middle Ages** Peter Biller, Joseph Ziegler, 2001 Medicine and religion were intertwined in the middle ages; here are studies of specific instances. The sheer extent of crossover - medics as religious men, religious men as
medics, medical language at the service of preaching and moral-theological language deployed in medical writings - is the driving force behind these studies. The book reflects the extraordinary advances which 'pure' history of medicine has made in the last twenty years: there is medicine at the levels of midwife and village practitioner, the sweep of the learned Greek and Latin tradition of over a millennium; there is control of midwifery by the priest, therapy through liturgy, medicine as an expression of religious life for heretics, medicine invading theologians' discussion of earthly paradise; and so on. Professor PETER BILLER is Senior Lecturer in History at the University of York; Dr JOSEPH ZIEGLER teaches in the Department of History at the University of Haifa. Contributors: JOSEPH ZIEGLER, PEREGRINE HORDEN, KATHRYNTAGLIA, JESSALYN BIRD, PETER BILLER, DANIELLE JACQUART, MICHAEL McVAUGH, MAAIKE VAN DER LUGT, WILLIAM COURTENAY, VIVIAN NUTTON.

**Treasure in the Medieval West** Elizabeth M. Tyler, 2000 Studies highlight the importance of treasure, real and metaphorical, in medieval culture.
